

When high credibility counts EPC is the one

- 1-Power Transmission & Distribution Towers
- 2-Substation Structure
- 3-OHL Accessories
- 4-Radio & Telecommunication Towers
- 5-Roof Musts
- 6-Poles: Power, Telecom, Lighting
- 7-Other Lattice Steel Structures
- 8-Hot Dip Galvanization as per BS729 or equivalent
- 9-Guard rails

Expert consulting, design and engineering services

EPC has invested tremendously in sophisticated special design programs to give the most economical Lattice Towers Structure. Our Team of Engineers, draftsmen, and detailers ensures that the developed tower is the most economical, taking into consideration the structural stability and all international standards.

Fabrication

All of our products are being manufactured by the use of up to date technology CNC machines (Angles & Plates), with the minimum manual handling required using raw materials from first class European steel mills.

Galvanization H.D.G

EPC facility is being equipped by one of the biggest galvanizing plants in the Middle East which kettle dimension is of 11.0m length, 1.80m width and 2.50 depth.

Quality Control & Assurance

Quality is one of the most important factors taken into consideration from early beginning stage starting from preparing the offer to customer and ending by project delivery. Starting from this belief, we raised our principle

NEVER TOLERATE WITH QUALITY

With EPC, your project is in safe hands
